```
What are the ethical
values you should use? Normative ethics is the field of moral philosophy that
helps in
determining what is morally right and what is wrong It separates honesty from
dishonesty It
develops moral rules that have a direct impact on human actions living,
institutions and quality
of living
It is
actively engaged upon It is not just a strong feeling about something Loyalty is
a
wholehearted commitment to a cause.
Professionals are characterized by their loyalty to the given job They show
punctuality and
high performance in the given task They also show lot of concern and positive
